TO USE OR SELL THE CORRECT KIND AND LENGTH HICKORY REPAIR TOOL HANDLES IN ANY SEAL BRAND NAME OF DELUXE SEAL BRANDS.

-  Metal and Wood Wedge Packs are on all Kinds of Short Hammer, Hatchet, Axe and Sledge Handles.
-  The Kind and Length is Imprinted on Each Kind & Length of DeLuxe Seal Brand Handles.
-  Eye Ends of Most Handles Slit for Easier and Faster Wedging.
-  The Size of the Tool Head the Handle is to be Used With is Imprinted on Most Kinds of DeLuxe Seal Brand Handles.
-  Now they are Self Selling.

Care Of Hickory Repair Tool Handles

1. Keep all excess quantity in cool place—never near stoves, furnaces, heat pipes or near roofs and ceilings.
2. Keep handles lying flat—never on ends—you can hang handles up by each end using a tack & string.

FACTS — FACTS

Good quality fast growth or second growth Hickory is the best to use because they will last much longer.

HOWEVER

This good Quality Hickory has a tendency to become crooked or warped much more than light or medium light weight and slow growth Hickory which, of course, does not last as long as the Good Quality Grade.

You Can Straighten
Most Kinds of Hickory
Handles

DeLuxe Seal Brands are
Guaranteed—Will replace
all severely warped handles
not over six months old.

**FAMOUS
DELUXE SEAL BRAND

IMPORTANT HELPFUL INFORMATION

At times you might have to use a longer handle or a shorter handle than was suggested in this Guide under the heading of HAMMER HANDLES, because many times the eye opening in some tool heads vary in size from time to time even with the same tool manufacturer.

DELUXE SEAL BRANDS HICKORY TOOL HANDLES ARE THE BEST FOR YOU TO USE
